

# TYLEND(A) COLLOQUIUM

To mark the retirement of Prof. Romuald Tylenda  
Head of N. Copernicus Astronomical Center in Toruń,

we organize a one day colloquium on different topics related to late stages of stellar evolution that he worked on during his active scientific career. Ample of time will be available for informal discussions and personal anecdotes.

# INVITATION

Scientific Colloquium  
to mark the formal retirement of  
**Prof. Dr.hab. Romuald Tylenda**

held at the  
Hotel Gromada  
Żeglarska 10/14  
Toruń, Poland  
On Tuesday, July 9<sup>th</sup>, 2013

## **PROGRAM:**

- 10:00 Marek Sarna, Director of CAMK: Welcome Addresses  
Jan Hanasz  
Antoni Stawikowski
- 10:30 Romuald Tylenda: "From classical to red novae – personal remembrances"
- 11:00-11:30 **Coffee break**
- 11:30 Agnes Acker: "From *wels* to OGLE-binaries CSPN"  
12:00 Detlef Schönberner: "The expansion of planetary nebulae -- theory vs. observations"
- 12:30 -14:00 **lunch buffet**
- 14:00 Noam Soker: "V838 Mon and other Intermediate-Luminosity Optical Transients"  
14:30 Andrzej Udalski: "Variable stars in the OGLE survey"  
15:00 Sławomir Górny: "Properties of planetary nebulae observed by Spitzer"
- 15:20 –16:00 **Coffee break**
- 16:00 Mirosław Schmidt: "Transition-metal oxides in warm circumstellar environments"  
16:20 Adam Frankowski "Dancing giants: binary stars on AGB and beyond"  
16:40 Tomek Kamiński: "Observations of stellar-merger remnants".
- 17:00 Ryszard Szczerba: "Terrible night ..."
- 18:00 **Gathering at a restaurant of the Gromada Hotel**
