## **High-Resolution Submillimeter Spectroscopy of the Interstellar Medium and Star Forming Regions — From Herschel to ALMA and Beyond**

*Zakopane, Poland  
May 12–16, 2015*

Dear colleagues,

We would like to thank you for your interest in the workshop. Those who have not yet sent an **abstract** and have not made a **hotel reservation**, we would like to inform you that **deadline for registration is extended to April 7, same as for hotel reservation**. Your abstracts are needed to finalize the program of the workshop, before sending the final announcement at the end of April.

The preliminary program allows planning a free afternoon on Thursday, May 14. One possibility we are considering, weather permitting, is an excursion by a cable car to the top of the Polish Tatras (see e.g. <http://www.discoverzakopane.com/kasprowywierch.html>) from where hiking is possible on several trails. So be prepared and bring appropriate shoes and clothes, as the temperature could be much lower there than in Zakopane. **Please let us know if you would be interested in such an excursion, so we can make further arrangements.** The cost will be 50-100 PLN (12-24 Euro) per person.

After a discussion with the travel agency, we have decided to reserve 2 buses on Tuesday, May 12, at about 3 p.m., one from the Balice Airport and the second one from the Krakow Center. Similarly, we will have two busses from Zakopane to Krakow Center and/or Balice Airport on Saturday May, 16. One bus will depart early in the morning (at about 6 a.m.) and the second one at about 9 a.m. Please check additional suggestion for travel alone on <http://herschel2alma.ncac.torun.pl>.

**IMPORTANT.** Please inform us about your preference, so we can reserve buses with the appropriate number of seats and the best schedule.

See you in Zakopane,

Maryvonne Gerin, Darek Lis & Ryszard Szczerba  
on behalf of the SOC and LOC
